

PLATINUM

Slip Resist

**PREMIUM
SEALERS**

TECHNICAL DATA SHEET

TYPICAL PHYSICAL PROPERTIES

Colour:	Cream beads	
Properties:	Weight	0.4kg/1 L
	Width	130 microns (average)
	Consumption	60grams / up to 10L

*Theoretical values are listed. Actual values may vary depending on test method and coating composition.

DESCRIPTION

Platinum Slip Resist is a revolutionary glass sphere for all film forming coatings where a slip resistive profile is required. By simply adding Slip Resist you will improve the slip resistant profile of the finished coating.

FEATURES

- Adds a slip resistant profile to Platinum gloss and satin sealers.
- Will not settle when added to sealer.
- Colour & size less visible in clear coatings than silica aggregates

AREA OF USE

- Driveways
- Pathways
- Steps
- Ramps
- Floors
- Any grip-critical surface suitable for sealing

APPLICATION GUIDE

Add the Slip Resist at the amount required to achieve the desired profile.

It is essential to ensure the Slip Resist is poured slowly into the sealer whilst stirring. Application of sealer with Slip Resist should follow as the procedures for the particular Platinum sealer.

DISCLAIMER
